National Technical Conference on Sanitary Sewer Overflows (SSOs)

AGENCY: Environmental Protection

Agency.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Environmental Protection Agency's (EPA) is sponsoring a technical conference on Sanitary Sewer Overflows (SSOs). This conference is sponsored by the EPA Office of Research and Development's Center for Environmental Research Information in Cincinnati, OH, in cooperation with the EPA Office of Wastewater Management in Washington, DC.

Background and Purpose

Thousands of municipalities across the nation are serviced by separate sanitary sewer systems. A chronic problem that faces many of these

systems is the occurrence of sanitary sewer overflows (SSOs). Caused mainly by the infiltration and inflow of wet weather flows and blockages and flow restrictions in the sewer system, these SSOs can pose a risk to public health and the quality of our nation's waters. The U.S. Environmental Protection Agency (EPA) is currently in the initial stages of evaluating issues associated with SSOs. To bring together individuals from across the country to discuss the technical and institutional issues related to SSOs, EPA's Office of Research and Development is holding this conference on SSOs in cooperation with the EPA Office of Wastewater Management in Washington, DC. All interested persons are invited.

The purpose of this conference is to examine each major issue relating to SSOs by providing an open forum for the presentation of papers and discussions dealing with the technical and institutional issues related to the causes, effects, management and control of SSOs. This conference will include presentations and discussions of the following issues relating to SSOs:

- Problem definition and identification
- Monitoring and reporting
- Sewer system analysis and modelingInfiltration (including RII) and inflow
- sources
- Exfiltration
- Sewer system design and construction for SSO prevention
- Sewer system inspection, operation, maintenance and rehabilitation
- Building sewer inspection and maintenance
 - Treatment plant issues
 - Regulatory/institutional issues

DATES: The Conference will be held on April 24–26, 1995. On the 24th, the meeting will begin at approximately 10:00 a.m. EST and run until about 5:00 p.m. On the 26th, the meeting will run from about 9:00 a.m. until completion. AGENCY: Environmental Protection

Agency (EPA). **ACTION:** Notice.

SUMMARY: EPA is granting conditional exemptions from the Toxic Substances Control Act (TSCA), section 4 test rule requirements to certain manufacturers of chemical substances subject to these rules.

DATES: These conditional exemptions are effective on March 31, 1995.

FOR FURTHER INFORMATION CONTACT: James Willis, Acting Director,

SUPPLEMENTARY INFORMATION: This notice grants conditional exemptions from TSCA section 4 test rule requirements to all manufacturers of the chemical substances identified below who submitted exemption applications in accordance with 40 CFR 790.80. In each case, EPA has received a letter of intent to conduct the testing from which exemption is sought. Accordingly, the Agency has conditionally approved these exemption applications because the conditions set out in 40 CFR 790.87 have been met.
