

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;

- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at DOL-Mine Safety and Health Administration, 201 12th South, Suite 4E401, Arlington, VA 22202-5452. Sign in at the receptionist's desk on the 4th floor via the East elevator. Before visiting MSHA in person, call 202-693-9455 to make an appointment, in keeping with the Department of Labor's COVID-19 policy. Special health precautions may be required.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

III. Current Actions

This request for collection of information contains provisions for Cleanup Program for Accumulations of Coal and Float Coal Dusts, Loose Coal, and Other Combustibles. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219-0151.

Affected Public: Business or other for-profit.

Number of Respondents: 195.

Frequency: On occasion.

Number of Responses: 176.

Annual Burden Hours: 243 hours.

Annual Respondent or Recordkeeper Cost: \$0.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Song-ae Aromie Noe,

Certifying Officer.

BILLING CODE 4510-43-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (22-063)]

Notice of Intent To Grant an Exclusive, Co-Exclusive or Partially Exclusive Patent License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Intent to Grant exclusive, co-exclusive or partially exclusive patent license.

SUMMARY: NASA hereby gives notice of its intent to grant an exclusive, co-exclusive or partially exclusive patent license to practice the inventions described and claimed in the patents and/or patent applications listed in **SUPPLEMENTARY INFORMATION** below.

DATES: The prospective exclusive, co-exclusive or partially exclusive license may be granted unless NASA receives written objections including evidence and argument, no later than September 15, 2022 that establish that the grant of the license would not be consistent with the requirements regarding the licensing of federally owned inventions as set forth in the Bayh-Dole Act and implementing regulations. Competing applications completed and received by NASA no later than September 15, 2022 will also be treated as objections to the grant of the contemplated exclusive, co-exclusive or partially exclusive license. Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act.

Objections and Further Information: Written objections relating to the prospective license or requests for further information may be submitted to Agency Counsel for Intellectual Property, NASA Headquarters at Email: hq-patentoffice@mail.nasa.gov. Questions may be directed to Phone: (202) 358-3437.

SUPPLEMENTARY INFORMATION: NASA intends to grant an exclusive, co-exclusive, or partially exclusive patent license in the United States to practice the inventions described and claimed in: U.S. Patent 10,566,089 entitled, "Nanosensor Array For Medical Diagnoses," to Agscent USA Inc., having its principal place of business in Denver, CO. The fields of use may be limited. NASA has not yet made a final determination to grant the requested license and may deny the requested license even if no objections are submitted within the comment period.

This notice of intent to grant an exclusive, co-exclusive or partially exclusive patent license is issued in accordance with 35 U.S.C. 209(e) and 37 CFR 404.7(a)(1)(i). The patent rights in these inventions have been assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. The prospective license will comply with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Information about other NASA inventions available for licensing can be found online at <http://technology.nasa.gov>.

Helen M. Galus,

Agency Counsel for Intellectual Property.

BILLING CODE 7510-13-P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Request for Comment Regarding Common Disclosure Forms for the Biographical Sketch and Current and Pending (Other) Support

AGENCY: National Science Foundation.

ACTION: Notice.

SUMMARY: In accordance with the requirements of the Paperwork Reduction Act (PRA) of 1995, the National Science Foundation (NSF), on behalf of the National Science and Technology Council's (NSTC) Research Security Subcommittee, is soliciting public comment on common disclosure forms for the Biographical Sketch and Current and Pending (Other) Support sections of a research application. An excel spreadsheet that summarizes all of the data elements that will be collected in both the Biographical Sketch and Current and Pending (Other) Support, as well as their associated attributes, also is included for public comment. The National Science Foundation has agreed to serve as steward for collection and resolution of public comments, as well

as for posting and maintaining the latest versions of the above-mentioned documents of the common forms and other associated documents. After obtaining and considering public comment, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years. NSF will be submitting this information collection request as Common Forms to permit Federal research funding agencies beyond NSF to streamline the information collection process in coordination with OMB.

DATES: Written comments on this notice must be received by October 31, 2022 to be assured consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Please address comments to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite E7400, Alexandria, Virginia 22314; telephone (703) 292-7556; or send an email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

FOR FURTHER INFORMATION CONTACT: For information on the proposed Common Disclosure Forms, contact Jean Feldman, Head, Policy Office, Division of Institution & Support, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA, 22314, email: jfeldman@nsf.gov; telephone (703) 292-8243; FAX: (703) 292-9171.

For further information on the NSTC Research Security Subcommittee, contact Christina Ciocca Eller, Assistant Director for Evidence and Policy, Executive Office of the President, Office of Science and Technology Policy, 725 17th Street NW, Washington, DC 20503; email: ResearchSecurity@ostp.eop.gov, telephone 202-456-6059; FAX 202-456-6027.

Comments: Comments are requested on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to

respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

We encourage respondents to submit comments electronically to ensure timely receipt. We cannot guarantee that comments mailed will be received before the comment closing date. Please include "Common Disclosure Forms for the Biographical Sketch and Current and Pending (Other) Support" in the subject line of the email message; please also include the full body of your comments in the text of the message and as an attachment. Include your name, title, organization, postal address, telephone number, and email address in your message.

SUPPLEMENTARY INFORMATION:

Title of Collection: Request for Comment regarding Common Disclosure Forms for the Biographical Sketch and Current and Pending (Other) Support.

OMB Approval Number: 3145-NEW.
Expiration Date of Approval: Not applicable.

Type of Request: Intent to seek approval to establish a common disclosure forms information collection for three years.

I. Background

Section 4(b) of NSPM-33 directs that "research funding agencies shall require the disclosure of information related to potential conflicts of interest and commitment from participants in the Federally funded R&D enterprise . . . The appropriate disclosure requirement varies depending on the individual's role in the United States R&D enterprise." Section 4(b)(vi) directs that "agencies should standardize forms for initial disclosures as well as annual updates, . . . and should provide clear instructions to accompany these forms and to minimize any associated administrative burden."

Over the past several months, the NSTC Research Security Subcommittee has worked to develop consistent disclosure requirements from senior personnel, as well as to develop proposed common disclosure forms for the Biographical Sketch and Current and Pending (Other) Support sections of an application for Federal research and development (R&D) grants or cooperative agreements. The purpose of the Biographical Sketch is to assess how well qualified the individual, team, or organization is to conduct the proposed activities. The purpose of Current and Pending (Other) Support is to assess the capacity of the individual to carry out the research as proposed and to help identify any potential scientific and

budgetary overlap/duplication, as well as overcommitment with the project being proposed.

These common forms are intended to clarify what is expected of senior personnel applying for R&D funding from Federal research funding agencies. Variations among research agencies will be limited to cases: (a) where required by statute or regulation; (b) where more stringent protections are necessary for protection of R&D that is classified, export-controlled, or otherwise legally protected; or (c) for other compelling reasons consistent with individual agency authorities and as coordinated through the NSTC.

As stated in the NSPM-33 Implementation Guidance, "the goal of these common forms and accompanying instructions is to ensure that applying for awards from any Federal research funding agency will require disclosing the same information in the same manner, to increase clarity and reduce administrative burden on the research community. In some cases, research agencies may adapt the forms and instructions, where required by their legal authorities. Such common forms also will allow the research community to identify and point out where greater clarity may be needed."

Agencies may develop agency- or program-specific data elements and instructions, if necessary, to meet programmatic requirements, although agencies will be instructed to minimize the degree to which they supplement the common forms. Modification and/or supplementation of these common forms will require clearance by OMB/OIRA under the PRA process.

These common forms are intended to replace forms/formats currently used by agencies for these sections of applications, thereby increasing the consistency of disclosure forms and reducing administrative burden.

II. Invitation to Comment

The following documents are available for review and comment on the NSF website (see https://www.nsf.gov/bfa/dias/policy/nstc_disclosure.jsp):

- a. A common Biographical Sketch form, including data elements and associated instructions;
- b. A common Current and Pending (Other) Support form, including data elements and associated instructions; and
- c. An excel spreadsheet that summarizes all the data elements, as well as their data attributes.

The National Science Foundation has agreed to serve as steward for collection and resolution of public comments, as

well as for posting and maintaining the latest versions of the above- mentioned

documents of the common forms and other associated documents.

including the accompanying instructions, and excel spreadsheet.

Input is welcome on any aspect of the proposed common disclosure forms,

BURDEN ON THE PUBLIC

Form name	Number of proposals (estimated)	Number of respondents (estimated)	Burden time (hours)	Total
Biographical Sketch	47,900	4	1	191,600
Current and Pending (Other) Support	47,900	4	1	191,600
Total burden hours	383,200

Dated: August 25, 2022.

NATIONAL SCIENCE FOUNDATION

Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.
ACTION: Notice of permit modification request.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. This is the required notice of a requested permit modification.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by September 30, 2022. Permit applications may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314.

FOR FURTHER INFORMATION CONTACT: Andrew Titmus, ACA Permit Officer, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; 703-292-4479; or ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and

certain geographic areas as requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Description of Permit Modification Requested: The Foundation issued a permit (ACA 2021-004) to Grant Ballard on September 23, 2020. The issued permit allows the applicant to engage in take, harmful interference, enter Antarctic Specially Protected Areas (ASPAs), and import samples into the USA in association with research on the role of environmental factors on foraging, diet, growth, and survival of Adelie penguins (*Pygoscelis adeliae*). Research activities include installing weighbridges, resighting banded birds, and following birds through incubation and chick-rearing until late January. The applicant and agents attach logging and tracking devices on breeding adults and collect fecal samples from adults and chicks during the brooding and guarding stage, then attach long-term GPS-Argos tags and geolocating dive recorders on adult penguins. To survey the large colonies at Cape Royds and Cape Crozier in a timely manner, the applicant and agents employ multiple, self- and collectively-aware remotely piloted aircraft (RPAS) simultaneously. Now the applicant proposes a modification to the permit to collect blood samples (1-2 drops each) from penguins already undergoing other handling, sampling, or instrumentation. The applicant proposes to take up to 220 blood samples from fledglings, 120 blood samples from chicks, and 130 blood samples from adult Adelie penguins per year. The applicant proposes to take up to an additional 30 feather samples from fledglings, and 20 feather samples from adults per year over feather samples already permitted. The applicant proposes to take up to an additional 240 opportunistic or cloacal swab fecal samples per year. Additionally, the applicant proposes to tag up to 60 chicks per year with small

T-bar anchor tags which will be removed at the end of the rearing season. The applicant also proposes to disturb up to 1000 penguins by surrounding a penguin subcolony with a plastic fence for the continuation of a long term weighbridge study to evaluate foraging trip duration, adult condition, and food delivery.

Location: ASPA 121, Cape Royds, Ross Island; ASPA 124, Cape Crozier, Ross Island; ASPA 105, Beaufort Island; Cape Bird (outside ASPA boundary).

Dates: November 1, 2022 to February 15, 2025.

Erika N. Davis,
Program Specialist, Office of Polar Programs.

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-143; NRC-2022-0097]

Nuclear Fuel Services, Inc.

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; opportunity to request a hearing and to petition for leave to intervene; order imposing procedures.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) staff has received an application from Nuclear Fuel Services, Inc. (NFS or the licensee) to amend special nuclear materials (SNM) license number SNM-124. The amended license would authorize the licensee to perform uranium purification and conversion services at the NFS site pursuant to a contract with the U.S. Department of Energy's National Nuclear Security Administration (NNSA). Because the amendment request contains sensitive unclassified non-safeguards information (SUNSI), an order imposes procedures to obtain access to SUNSI for contention preparation by persons who file a
